About Me

A dedicated Software Developer seeking a challenging position where I can leverage my passion and skills to create innovative and unique software solutions that provide exceptional user experience and security.

Education

- Bachelor of Science in Computer Engineering, University of Science and Technology, Yemen (2020-2024).
- Diploma in Application Development, Yemen Sol Training Institute, Sana'a (September 2024 - December 2024).
- International Computer Driving License (University of Science and Technology, Yemen (March 2021 - June 2021).

Experience

1. Comprehensive E-commerce Application, (06/2024 - 08/2024).

- Full-stack development using Dart and Flutter.
- Displays products and prices in an attractive and customizable manner.
- Includes a dedicated section for displaying company advertisements and upcoming products.

2. Radwan Chat Application, (09/ 2024 – 11/ 2024).

- Full-stack development using Dart and Flutter.
- Features login via multiple platforms (Google, email) and includes features such as in-chat notifications, company notifications to users, animations, and other features that mimic global chat applications.
- Uses Firebase database to ensure seamless integration between the backend and frontend.

3. Daily Task Manager Application, (11/ 2024 - 12/ 2024).

- Full-stack development using Dart and Flutter.
- Adding daily tasks and notes allows users to organize their tasks easily and efficiently.
- Ability to categorize tasks by purpose (work, study, shopping, others).
- Provides user-friendly and customizable interfaces such as dark or light mode.
- Ability to display tasks in multiple ways, including graphs.

4. Professional Calculator Application, (01/ 2025 - 01/ 2025).

- Full-stack development using Dart and Flutter.
- Performs basic arithmetic operations.

Skills

1. Technical Skills

- Flutter and Dart development.
- Firebase for database management and performance analysis.
- User Interface and User Experience design.
- Backend development for system integration.
- Strong understanding of object-oriented programming principles.
- Ability to debug complex code
- Full-stack development from design to deployment.
- Optimizing performance using the latest programming practices.
- Analyzing user requirements and translating them into innovative technical solutions.

2. Soft Skills

- Adaptable and quick learner.
- Critical thinking and problem-solving.
- Effective communication skills
- Ability to work both independently and in a team.
- Ability to handle pressure.

Personal Information

- Name: Redwan AbdulMajeed Mohammed Qahtan.
- Date of Birth: 19/ 09, 2000
- LinkedIn: <https://www.linkedin.com/in/redwan-flutter-192833346>

Languages

- Arabic: Native language.
- English: very good in reading, writing, and speaking.

Interests

- Following technological advancements in software development.
- Developing personal projects to improve skills.
- Learning new technologies such as artificial intelligence and developing software using modern techniques.
